HIMACHAL PRADESH STATE ELECTRICITY BOARD

NOTICE

Simla-4, the 1st December, 1976

No. HPSEB/22-24/1/76-Works.—In pursuance of section 29 of the Electricity (Supply) Act, 1948, it is hereby notified that the Himachal Pradesh State Electricity Board proposes to undertake the following scheme:—

(a) *Name of the Scheme:—*

132 K. V. Substation at Simla (Jutogh).

(b) *Brief Description and its scope:—*

At present the Himachal Pradesh is drawing Bhakra Power to meet the load requirement of Simla on 66 K. V. single circuit line from Surainpur (Kalka) to Simla via Solan. With the growing load demands at Solan and Parwanu enroute, the 66 KV line would be totally insufficient, to meet the requirements of Simla. The Beas Construction Board has agreed to allocate 36 MVA from the B.S.L.

project for utilisation in Himachal Pradesh and accordingly, 132 K. V. single circuit line, between Dehar and Simla, as an inter-State link, is already under construction. Since the step-down arrangements at Simla are to be covered under State plan and not as a part of inter-State link, this sub-station is proposed to be erected at the earliest.

The scheme under notification covers installation of 132/66 and 33 K. V. transformers and allied equipment and the works fall in the territory of Himachal Pradesh only. Following works are envisaged in the scheme:—

(i) 4 Single phase 132/33 K. V., 5.33 MVA transformers. $\sqrt{3}/\sqrt{3}$
(with one stand-by unit).

(ii) 4 Single phase 132/33 K. V., 5.33 MVA transformers. $\sqrt{3}/\sqrt{3}$
(with one stand-by unit).

(iii) 66 K.V. control Equipment for connection to the existing sub-station.

2. For the Placing of wires, poles, wall brackets, stays, apparatus and appliance for the transmission and distribution of electricity or for the transmission of telegraphic or telephonic communications necessary for the purpose

of the scheme, the Board shall in accordance with provisions of section 42 of the Electricity (Supply) Act, 1948, have and shall exercise all the powers which the telegraph authority possesses under part (II) of the Indian Telegraph Act, 1885 (13 of 1885) with regard to a telegraph established or maintained and shall not be bound by the provisions of section 12 to 15 and 18 to 19 of the Indian Electricity Act, 1910.

3. The estimated capital expenditure of the scheme is Rs. 130.10 lacs. The scheme is remunerative yielding a return of 68.38% in the 5 year of operation.

4. Notice is hereby given that any licensee or other person interested may raise any objection and or make any representation on the above scheme by 31st January, 1977 whereafter no objection and/or representation will be entertained and the scheme shall be sanctioned with or without modification as approved by the Board.

5. Necessary plans showing the layout etc. of the sub-station may be inspected on any working day in the office of the Superintending Engineer, Planning and Design (Electrical), HPSEB, Sunview Building, Simla-1 and objections and/or representations in respect of this scheme, if any, should be sent to the undersigned.
